Monumental Marble

April 2, 1923

Vermont Marble Company
Proctor, Vermont

Branch Service

To make it more convenient for our customers, we maintain Branches in various parts of the country. Each Branch has charge of our business in its territory and we believe our relations with you will be best served through the Branch in whose territory you are located. The addresses of our Monumental Branches are as follows:

Boston	10 Thacher St.
New York	101 Park Ave.
Philadelphia	22nd & Westmoreland Sts.
Cleveland	9508 Quincy Ave., S. E.
Chicago	404 E. No. Water St.
San Francisco	244 Brannan St.

To give you the best possible service, our Branches (with the exception of New York) carry well selected stocks of monumental marble, both sand rubbed and finished. An additional charge, varying at each Branch, is made for shipment from Branch stock.

Our cable address is "Vermarble."

Terms of Sale

1. The prices contained in this book are F. O. B. cars at our mills in Vermont.
 2. Invoices for monumental marble or supplies are subject to a 3% discount for cash payment within 30 days from their date. Settlement may be made by three months' bank note of even date with invoice. If not paid in full within 90 days from date, invoices are due and subject to interest at 6% from due date.
 3. A discount of 5% will be given on Vermont marble of our production in carload lots of 36,000 pounds or more in one order.
 4. Prices other than those quoted in this list are not subject to carload or cash discounts.
 5. Orders are not subject to cancellation.
 6. All claims must be made within twenty days from receipt of marble and no charge for work on defective marble will be allowed.
 7. The delivery of goods to the transportation company and the procuring of their shipping receipt therefor shall be considered a delivery to the purchaser.
 8. Should freight overcharges occur and you desire us to assist in collecting them, please send the original paid freight bill and bill of lading, and in case of overweight, a weigher's certificate of the weight.
 9. In case of damage the delivering Freight Agent must certify to the damage, on the original paid freight bill, before the goods are removed from the freight station. If this is not done, no collection can be made from the transportation company.
 10. This price list is for dealers only.
 11. No goods sold at retail.

<p>If pieces are ordered 8.1 to 8.11 long or 5.1 to 5.5 wide, charge extra 35c per cubic foot in either case, and for every additional foot or fraction thereof in length and every additional 6 inches or fraction thereof in width, charge</p>	
" " " "	.35

For unusual sizes ask for special prices

Rutland Slabs, other than full size of block 2, 3 and 4 inches in thickness, in grades of Best No. 3 and higher, ordered to contain 15 sq. ft. or more, extra over list prices quoted herein	10%
Sawing or sand rubbing one end or both ends of slabs 0.2 to 0.4 thick and of strips and similar pieces of any thickness, extra per cu. ft.50

All Rutland, except full size slabs, pieces with coped edges and inferior grades, will be crated and charged for unless otherwise ordered.

All other monumental varieties, except full size slabs and inferior grades, will be sand rubbed and crated and charged accordingly.

Any stock ordered sand rubbed will be crated and so charged.

Inferior grades will not be furnished for monuments, markers or headstones except in bottom bases.

In figuring cubic contents any fraction of an inch will be treated as a whole inch.

Price List
of
Finished
Monumental Marble

Monumental Finishing Rules

1. Tracing on all monuments and tablets will be done as shown in the designs unless otherwise ordered.
2. Tracing of epitaphs, where shown, is done without extra charge.
3. Tracing on urns and other turned work, even though shown in designs, will not be done without special instructions, if balance of monument is not ordered finished.
4. Marble ordered Fine Sand Finished will be given a Grit Finish. If the order calls only for Sand Finish, the marble will be either coarse sanded by hand, or furnished as it comes from the rubbing beds.
5. Boxing of all monuments and crating of Bottom Bases are included in the prices for finished monuments given in this price list.
6. Where inscriptions are shown on any photographs or cuts, such lettering is not included in the list price.
7. Dowel Holes will be drilled in all tablet designs when ordered complete with base.
8. Bottom bases of all finished work will be of Inferior marble and sand finished unless otherwise listed or ordered.

* * * * *

Estimates on any work not quoted in this list will be furnished upon request.

Dowel-Pins which will not rust, either aluminum, brass, copper or composition, should always be used to set marble work. Galvanized iron should not be used.

M. M. Finish S. S. Bottom Bases

"M. M." finish is distinctive. It is not a machine process; it is a hand-chisel method requiring more than average skill, gaining thereby the character and richness which come only through individual work. In appearance it is in direct contrast to polished marble. Under the magnifying glass it shows a surface covered with fine parallel lines or ridges. It has the bright crystalline quality of natural stone without the roughness.

We recommend all the following varieties without reservation, and especially gray, provided they are ordered in the grades specified.

	Class
Gray	K
Pittsford Valley or Brandon Italian	K or I
Riverside	K or I
Rutland	I or D

This "M. M." finish is not intended to supplant the other finishes. Nor is it suitable for all designs. The dealer will understand where it can best be used. To avoid confusion every order should give complete information as to how the marble is to be finished.

"M. M." finish memorials will be provided with what is termed "S.S." (Selected Stock) bottom bases. All such bases will be of special selection.

"S. S." bottom bases with either "M. M." or "hand sand" finish can be substituted in designs listed with regular inferior bottom bases at an additional charge of \$1.75 per cubic foot.

The designs listed in this book in "M. M." finish can be furnished in polish, hone or sand finish at the same price.

Index of Grades According to Class and Price

Care of Marble

Give marble the care that it deserves, the care that any valuable product should receive and it will go down through the years unchanged, preserving its original beauty and character.

Every cemetery memorial should be cleaned once or twice a year and all the dirt, moss or lichens that has started to collect should be removed. These foreign substances absorb moisture and tend to roughen the surface. Keep the marble clean and this trouble will be averted.

For this cleaning, we recommend a solution of chloride of lime. Wash the stone thoroughly with it and then rinse with clean water and wipe dry.

The monument that has once become roughened can best be restored through treatment with pumice stone or fine grit.

Never use acid.

Never use a wire brush.

Never use soap or soap powders.

If a cleaning powder is found necessary, use Wyandotte Detergent. Sprinkle it on a sponge and rub the marble. Rinse thoroughly with clean water and wipe dry.

Stains

All stains should be removed as quickly as possible.

Oil stains are usually a light yellow. Apply high-test gasoline or naphtha on cotton waste or blotting paper and keep over the stain, saturating from time to time. Stains from marking crayons come in this class. Obstinate cases may require repeated treatments. Do not use a blow torch or other artificial heat. Within limits it is helpful, but the degree of heat is not readily regulated and burning the stone may easily result. The stain can be removed without it, although it takes longer. A poultice of hot lime on sand-finished or honed marble is often successful.

Pink or red-brown stains usually come from boxing, excelsior, leaves, or some organic substance. Such a stain is not usually serious nor permanent, and will often disappear upon exposure to the weather. The process may be hastened by application of a chloride of lime paste to sand-finished marble and a chloride of lime solution to polished surfaces.

Rust stains are difficult to remove. If on the surface and due to cinders, nails, etc., they should be rubbed off promptly. Never use iron or steel dowels or cushions.

Ordinary Grey Portland Cement is often the cause of stains. Use Atlas White Stainless Portland Cement for foundations and joints. Use clean water, clean sand, and clean tools. Our experience shows that stains not infrequently come from dirty aggregate. Plaster Paris and Keene cement are soluble in water and not suitable for joints or backing where there is moisture present.

Bronze stains are hard to remove. Use only U. S. Standard Bronze, natural finish, without oil, lacquer or oxidized surface.

Never use linseed oil putty in marble joints—it stains.

Stains will often disappear through the action of sunlight and frost when all else fails.

" " 3 " or more	30%

ALUMINUM CUSHIONS

For maintaining joints in stone work, aluminum cushions resist the action of air, acids, and moisture—are absolutely stainless—and so light they can be easily carried in the pocket. Made up in two sizes only—1½" square by ⅜" thick. Price \$0.60 per dozen—\$2.25 for 50—\$4.00 for 100. 1" square by ¾" thick. Price \$0.50 per dozen—\$2.00 for 50—\$3.50 for 100.

ALUMINUM DOWELS

The dowel that never rusts. Lighter than iron—easier to handle and cut—yet strong enough for the heaviest work. Stocked in three sizes: 4 x ¾—4 x ½—6 x ¼. Prices: 65c per lb. Special sizes 70c per lb. In rods (about 10 feet long) 60c per lb.

VERMONT WHITE CEMENT

It is not surprising that the sale of this product has steadily increased, until it is the leading stone cement on the market.

A powder and liquid cement that is non-expansive and will not crack the marble—that is white in color and absolutely stainless, that may be easily colored to match different varieties of stone and marble, that is not affected by frost, water or time—best of all, a cement that is double the bulk of any other, therefore, a most economical product. To overcome complaints of coarseness, we are now bolting it through cloth in manufacture. The cement we are shipping now is whiter than in the past.

It has a crushing strength of ten tons to the cubic inch. By actual test it is three times as strong as clear Portland Cement—fourteen times as strong as one part Portland Cement and three parts sand. It makes a joint that is as solid and unbreakable as the stone itself.

It will help the dowel-pins do their work; it will close up the joints and keep out the water and dirt; it will work equally well whatever may be the form or size of the marble and whether the joint be straight or broken. In short, it is good for all kinds of monumental setting and it may be used more freely than other cements because it costs less.

We are revising the directions for the use of the cement to make it more fool proof and to protect you in its use. Follow the directions in using. Work vigorously, using quantities of liquids recommended and furnished in the package.

The 3-pound package (3 pounds of powder and 1 pint of liquid) Price, \$1.75
 The 6-pound package (6 pounds of powder and 1 quart of liquid) Price, \$3.00
 Extra liquid \$.75 per pint; \$1.25 per quart

Coloring Pigment

Red, Yellow and Brown (pound can) \$.50
 Black (pound can)75
 Green (quarter pound can) 1.00

Note—Samples of the coloring pigment are included in each can of cement

PHOTOGRAPHS

The value of a good photograph can hardly be estimated. Its influence on a prospective customer frequently counts for more than the salesman's argument. Indeed, many instances might be cited to prove that a well chosen list of photographs is in itself a salesman of no mean ability.

With this thought in mind, we have endeavored to keep our gallery thoroughly equipped in every way. That its efficiency has been appreciated is evidenced by the growth of the department—a growth that has been attended by the addition of hundreds of new negatives.

It has been deemed advisable to discontinue the use of the small photograph. All the new designs are obtainable only in large size photographs. We can still furnish the small size in the old designs.

Prices

Size (10½ by 13½ in.) flexible, per doz.	\$8.00
Size (10½ by 13½ in.) flexible lots less than 1 doz., each75
Size (10½ by 13½ in.) with extension flap for binding per doz.	8.50
Cloth binding, extra per book	3.50
Leather binding, extra per book, price on application.	

In addition to the foregoing, we have a stock of heavy, dark-gray Academy folders (size 11" x 14") suitable for the mounting of the black-and-white, dull-finish photographs, known as Azo prints that we are prepared to furnish to the trade. These prints are made on double-thick paper and require in the finishing a much greater outlay both of material and labor. Only the later and larger designs can be furnished in this style of photo and they are to supplement rather than replace our other photographs.

Our price to the trade for these Azo prints in folders will be \$1.25 each, \$6.50 per one-half dozen, or \$12.00 per dozen. On orders amounting to \$15.00 or more, a discount of 10% will be allowed.

Epitaph Books, each 25c., per doz.	\$2.00
Expeditious Calculator, each	3.50

DESIGN BOOKS

Design Book "N" is a collection of about two hundred and seventy-five regular designs, bound similarly to Design Book "M", but in a larger size with an entirely different form of illustration.

Design Book "O" is a Cross Book. It is uniform in size and treatment with Design Book "N," containing one hundred and forty-four pages.

Design Book "P" is a Children's Book, made up of one hundred and twelve pages. This also is similar to Design Book "N", having the same height and width and the same substantial binding.

"Modern Marble Memorials"

A collection of forty or more modern designs, printed in sepia ink on dull-coated India paper, and richly bound in heavy paper covers. Contains also many small illustrations of Vermont marble memorials and the quarries and shops that produced them. Size 7½ x 10. Price each, \$1.50.

Design and Sample Cases

Case "A."

Made from selected leather, brass trimmed, with sewed joints and extra protection on the corners. The interior is lined with plush throughout and provided with two hinged partitions. Size 16½ by 13 in., each \$30.00

Case "AA."

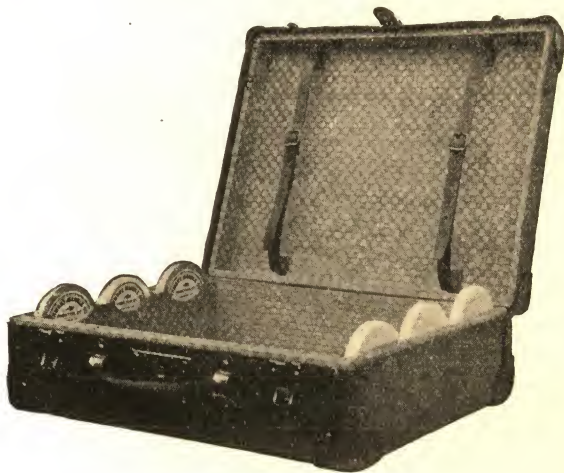

A flexible all-leather case with all joints sewed, containing two large pockets for photographs and designs, also smaller compartments for order books, stationery, samples, etc. Thoroughly durable and yet light enough to be easily carried. Size, 16½ by 12½ in., each \$27.00

Case "B."

Similar in style to case "A." Some of the joints are riveted instead of sewed and portions of the interior are lined with canvas. Size, same as case "A," each \$24.00

Case "BB."

Made from selected leather. A plain case without partitions, lined throughout with genuine linen. Cover reinforced with steel valance. A good case for agents wanting something smaller and plainer and of best quality. Size, 15½ by 12½ in., each \$18.00

Case "C"

Case "C."

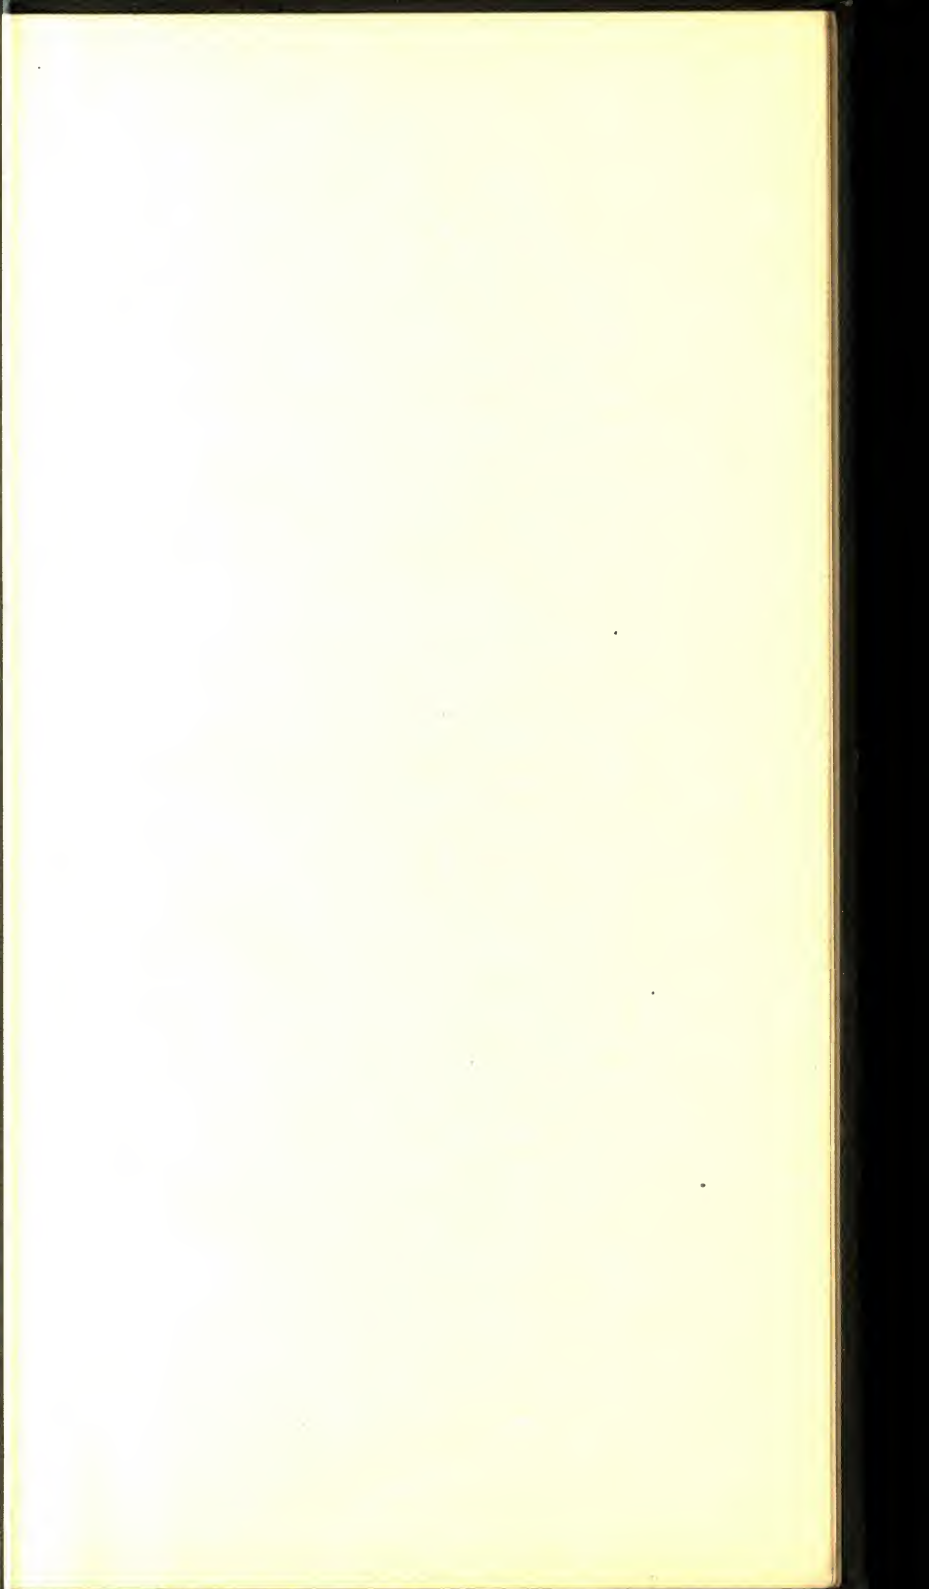

A brass-trimmed case. All joints are riveted. The lining is of canvas and there are no partitions. Size, same as case "A," each \$10.00
